

Why Two Hods?

Crawford Ranges

have an Ash Hod with a Coal Hod beside it (patented). The Ash Hod is deep and catches all of the ashes. It is easy to remove and carry and doesn't spill. Both hods free. The old, clumsy ash pan is hard to remove and strews ashes over floor and stairs.

The wonderful "Single Damper" [patented] makes perfect control of fire and oven. Better than two dampers. Have you seen it?

Gas ovens if desired; end [single] or elevated [double].

NATIVE OF VERMONT.

Colonel Charles F. Spaulding Became Gas Expert and Inventor.

Boston, April 30.—Col. Charles F. Spaulding, who died Wednesday at his home in Waltham at the age of eighty-seven years, was a gas expert and inventor. He was a native of Franklin, Vt., and when a young man went to Burlington, where he became superintendent of the gas and waterworks system. A few years later he moved to St. Johnsbury, where he was superintendent of the tin department of the Fairbanks Scale company. Early in the Civil war he organized the Sixteenth regiment of Vermont volunteers, was given the rank of major and served throughout the war. After the war he was for years colonel in the Vermont militia.

In 1872 Colonel Spaulding returned to his former post in Burlington, Vt., and in 1877 became superintendent of the gas works in Brookline. During his residence in that town he served four years on the board of selectmen. He moved to Waltham twenty-five years ago and became superintendent of the Waltham Gas company, a position he held until seven years ago. Since then he had been consulting engineer at the Newton & Watertown Gas company. Col. Spaulding was former president of the New England Gas Engineers' association and of the South of the Engineers and a member of the National Gas association. He was also a member of the G. A. R., the Knight Templar and the Masonic lodge of St. Johnsbury, Vt., and of the Mystic Shrine in Boston.

DROUGHT OF LONG DURATION.

Cotton and Garden Truck Suffering—Wheat and Corn Conditions Favorable.

Washington, April 30.—The longest early spring drought in more than 40 years now exists over the more eastern portions of the country, the national weekly weather and crop bulletin announced Wednesday. Cotton and garden truck crops in the eastern part of the South are suffering for lack of rain, but in the great wheat and corn sections of the Middle West the weather of the last week has been unusually favorable. In the far western states the outlook for fruits of all kinds continues promising.

HEAL YOUR SKIN WITH RESINOL

It Stops Itching Instantly, and Clears Away Unsightly Eruptions.

If your skin itches and burns with eczema or any such tormenting, unsightly skin disease, simply wash the sore places with Resinol Soap and hot water, dry, and apply a little Resinol Ointment. The itching stops INSTANTLY, you no longer have to dig and scratch, sleep becomes possible, and healing begins at once. That is because the soothing, antiseptic Resinol medication strikes right into the surface, arrests the action of the disease, and almost always restores the tortured, inflamed skin to perfect health—quickly, easily and at little cost.

Prescribed by doctors for twenty years, and sold by every druggist.

A GOOD WAY TO SHAMPOO

Shampoo with Resinol Soap, rubbing its lather thoroughly into the scalp, so as to work in the soothing, healing Resinol medication. This almost always stops dandruff and scalp itching, and keeps the hair live, thick and lustrous.

A Hint for Orators.

Demosthenes was about to go down to the seashore and perform his customary stunt in talking with his mouth full of pebbles to improve his enunciation. On the way an assailed him. "What's the use of fussing with a lot of big pebbles," he growled, "when I can get the same effect out of the Gallican battlefields?" And he said Sully's muzzel six times in rapid succession.—Cleveland Plain Dealer.

Acute Articular Rheumatism

Relieved by Anti-Kamnia Tablets

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. S. Schultze expresses the opinion of thousands of practitioners when he says that Anti-Kamnia Tablets should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also dispensed by mail. For neuralgias and all pains. Ask for A-K Tablets.

William Hodge Makes a Witty Speech at End of Third Act.

William Hodge, who has been all season enjoying a record run in Boston, makes a very witty speech at the end of the third act of "The Road to Happiness," in which he is to be seen here at the opera house on Monday, May 3. The speech itself is said to be as oddly humorous as anything in the play itself. Speaking of this speech, Hodge tells of the one he made in Chicago after the premier there of "The Man From Home." Booth Tarkington and Harry Leon Wilson, the authors of that play, and each written a speech for Hodge, but he wasn't quite suited with either and failed to learn them. Following on the opening night the audience insisted on his making a speech. Says Hodge: "I was thunderstruck at the thought of the ordeal. Then it occurred to me, 'why not tell them the truth?' I did. I said: 'Ladies and gentlemen, from the time I began my stage career I have looked forward to this moment. I have seen great actors come before the curtain and in grateful periods acknowledge their gratitude, and I have longed for the time when I, as a star, would have an opportunity to do the same. I have often thought of the things I would tell you. I have looked upon wonderful philosophy and marvelous poets. I have thought to overwhelm you with my eloquence and ready wit. And now the moment has come. You are there and I am here, and I can't think of a dished word to say.' And the joke was that the audience thought that was the funniest speech they ever heard, and I had to go it right through the engagement."—Advt.

SCHOOL LAW CRITICIZED.

Rutland County School Officials Found Fault With It.

Rutland, April 30.—The annual meeting of Rutland county school officials was held yesterday in the assembly hall of the high school. The topic for discussion was "New School Legislation," and as one of the high officials stated, "If one started to look up all the things the general assembly did to schools he would be obliged to give up any job he had and devote himself to that subject." The school officials say that the educational code is practically a new law and from the discussion yesterday it was gathered that it takes people with even clearer minds than school superintendents to interpret the meaning of some of the statutes passed by the recent legislature.

Supr. W. A. Beebe of Proctor took up the question from the standpoint of the superintendent and covered many changes, and pointed out injustices that rise from some of the measures adopted. The transportation policy was discussed, where the state will pay for the transportation of a pupil when he lives beyond the one and one-half mile limit from the schoolhouse. If a little girl of tender age lived but a tenth of a mile within that limit she would receive no assistance, the speaker explained. That is not simply a hypothetical supposition was brought out by a man present stating that it was exactly the situation that confronted his own family, his small daughter being just inside the law limit.

In the afternoon Mason S. Stone of Montpelier took up the question of the educational policy in regard to rural schools rather than the laws governing the conducting of schools and pupils.

One great change in the laws of the year is that a superintendent who has charge of a number of towns is appointed by the state and is paid entirely from state funds, whereas in former years the towns elected their own officer and paid about 20 per cent. of his salary. After July there will be 12 places in the state where the superintendent is elected by the school board.

Dr. C. B. Ross of West Rutland, one of this year's legislators, gave a most interesting talk from the standpoint of the school director.

NEURALGIC PAINS

These may be felt in any nerve of the body but are most frequent in the nerves of the head. Neuralgia may be caused by a decayed tooth, eye-strain or a diseased ear but the most common cause is general debility accompanied by anemia, or thin blood.

For this reason women who work too hard or dance too much and who do not get sufficient rest, sleep and fresh air, are the most frequent sufferers from neuralgia and sciatica, which is neuralgia of the sciatic nerve.

Nutrition for the nerves is the correct treatment for neuralgia and the only way to nourish the nerves is through the blood. Dr. Williams' Pink Pills supply to the blood just the elements it needs to increase its capacity to carry nourishment to starved nerves. They have proved helpful in so many cases of neuralgia and sciatica that any sufferer from these troubles is fully justified in giving these pills a trial. Dr. Williams' Pink Pills contain no harmful or habit-forming drugs and may be taken for any length of time with perfect safety.

The pamphlet "Diseases of the Nervous System" is free to you if you mention this paper. Address: The Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

not announced, but the terms asked by Mrs. Thayer were that she be paid a certain sum and that the suit which had been brought by her husband, John L. Thayer, against Edward Todd, charging that Todd alienated her affection, be dropped and that Todd be paid his costs. Todd formerly worked for John L. Thayer. He and Mrs. Thayer were stopped while driving through Hinsdale, N. H., and Todd was arrested on the charge of attempted elopement, but was released, nobody appearing against him. By reason of the settlement the facts on which Mr. Thayer based his suit will not come out, unless through divorce proceedings which are pending.

After the Hinsdale episode Thayer brought the alienation proceedings against Todd for damages. Mr. and Mrs. Thayer filed divorce petitions and Mrs. Thayer sued her husband's brother for work she claimed to have done on his farm and in his home from Oct. 1, 1909, to Jan. 1, 1915. It is the last mentioned case that has been discontinued through settlement.

There are still to be heard a divorce trial brought by Thayer, in which he alleges a statutory offense, and a cross libel brought against him by his wife, in which she alleges cruel and abusive treatment and desertion.
